G12 CENTURY VINTAGE

With the G12 Century Vintage, our mission was to create a loudspeaker that combined all the benefits of a Neodymium magnet structure with a voicing that evoked the classic guitar tones of the 1960s and '70s.

The incredible magnetic properties of Neo mean that only a small amount is needed to produce the same flux as a much larger ceramic magnet structure. What's more, the magnet of the G12 Century Vintage is a 'pot' type which actually sits inside the voice coil (unlike the 'ring' magnet of the G12 Century which surrounds the voice coil). The resulting weight of the G12 Century Vintage is just 1.66kg (3.65lb).

The Neo characteristics of fast attack, responsiveness and articulation are very much in evidence. However this specific magnet configuration, combined with a carefully selected cone material and edge treatment, gifts the G12 Century Vintage with a classic rock sound for the new millennium.

8Ω FREQUENCY RESPONSE

GENERAL SPECIFICATIONS

Nominal diameter 12", 305mm
 Power rating 60W
 Nominal impedance 8Ω & 16Ω
 Sensitivity 98dB
 Chassis type Pressed steel
 Voice coil diameter 1.75", 44.5mm
 Voice coil material Round copper
 Magnet type Neodymium
 Frequency range 75-5000Hz
 Resonance frequency, Fs 70Hz
 DC resistance, Re 6.88Ω & 13.35Ω

MOUNTING INFORMATION

Diameter 12.2", 309mm
 Overall depth 5.0", 128mm
 Magnet structure diameter 5.5", 140mm
 Cut-out diameter 11.1", 283mm
 Mounting slot dimensions 0.31", 7.9mm Ø
 Number of mounting slots 4
 Mounting slot PCD 11.7", 297mm
 Unit weight 3.7lb, 1.7kg
